EXPLANATORY REMARKS.

NOTICE.

GENTLEMEN :

Our Book of Patterns is sent *on condition* that it be returned to us or our representatives, whenever the party holding does not wish to sell from it.

We want it perfectly understood that our Pattern Book is a part of our Stock in Trade, as much as any portion of the machinery in our workshop.

If for any reason you do not wish to sell from it hereafter, we shall expect you to return it, so that we can place it in the hands of others who will. It was got up at large expense to us, and if used for the benefit of others, we must consider it a breach of trust.

All Boxes are charged for, which contain Glass over forty inches long, but may be returned at the same price charged.

Ruby, Blue and Yellow, is 50 cts. higher per square foot than the Ground and Cut marked in this book.

EXPLANATORY REMARKS.

In this book of Designs, we do not profess to do more than to give a few specimens of different styles of work, to assist our friends in their choice of ornaments suitable for any purpose required. It must not be supposed that these are the only patterns which we undertake to execute upon glass. We can, on the contrary, produce every possible variety of design and workmanship in Ornamental Glass. If therefore one particular pattern or design be required different from any in this book, we can either furnish a sketch for approval, or can produce upon glass the copy of any design, picture, figure, or ornament which may be furnished to us, either in the Ancient or Modern Style, Enamelled, Embossed, Painted, Stained, etc. For our designs, we charge according to workmanship, but we either take them back at the price charged, or allow for them when we have the order for the glass.

The Ground and Cut are always double-thick glass, except that which is marked plate, and can be done as large as 20 × 60. All over that size is Plate Glass.

The Stained and Cut, Enamelled and Flock, can be done as large as 20 × 42, and is on single-thick glass. The Stained and Cut is done on Ruby, Blue, and Yellow.

When Stained and Cut is ordered, it should be stated what color is wanted on each pattern, as any of the three colors can be put on any of the patterns.

All irregular shaped lights are charged as square, and at the same prices. All fractional parts of inches charged as whole inches. In ordering, it is desirable that the position of the glass be shown by a rough sketch.
